

**Thesis Application Form  
(Certification of Eligibility to Enroll in CS 4510)**

1. All CS honors students must complete and turn in this form with their thesis prospectus within the first two weeks of the semester in which they want the credit registered.
2. **Please attach a 1-2 page thesis prospectus with your director's signature at the bottom of the prospectus. Any thesis application forms turned in without the prospectus will be returned and not submitted to the Registrar until completed.**
3. Each student must attach a copy of the Special Course Request Form (SCRF) with this application. Students must submit a new SCRF for each semester in which the student plans to receive academic credit for the thesis. The form can be obtained from the Honors Program Director or from the Department Office.
4. Please note that completing the thesis does not guarantee graduation with honors. Students must complete 6 hours of honors coursework with B or better in each honors course, and meet the major GPA requirement to graduate with honors in computer science.
5. The printed and signed copies of the thesis must be given to the Honors Program Director by the first day of exams.
6. If pursuing both University and Departmental Honors, the second reader must be from a different department than the Thesis Director.
